

MEX Assistant – AI Chatbot for Business Insights

Empowering Grab Merchant-Partners with
Real-Time, Actionable Insights using AI.

Introducing Grabby: Your AI Business Assistant

Empowering Merchants

Grabby transforms raw business data into simple conversations.

Real-Time Insights

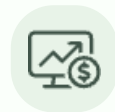

Personalized, actionable advice to support business growth.

The Challenge: Digesting Business Data

Interpreting Sales Data

Merchants struggle to interpret complex data.

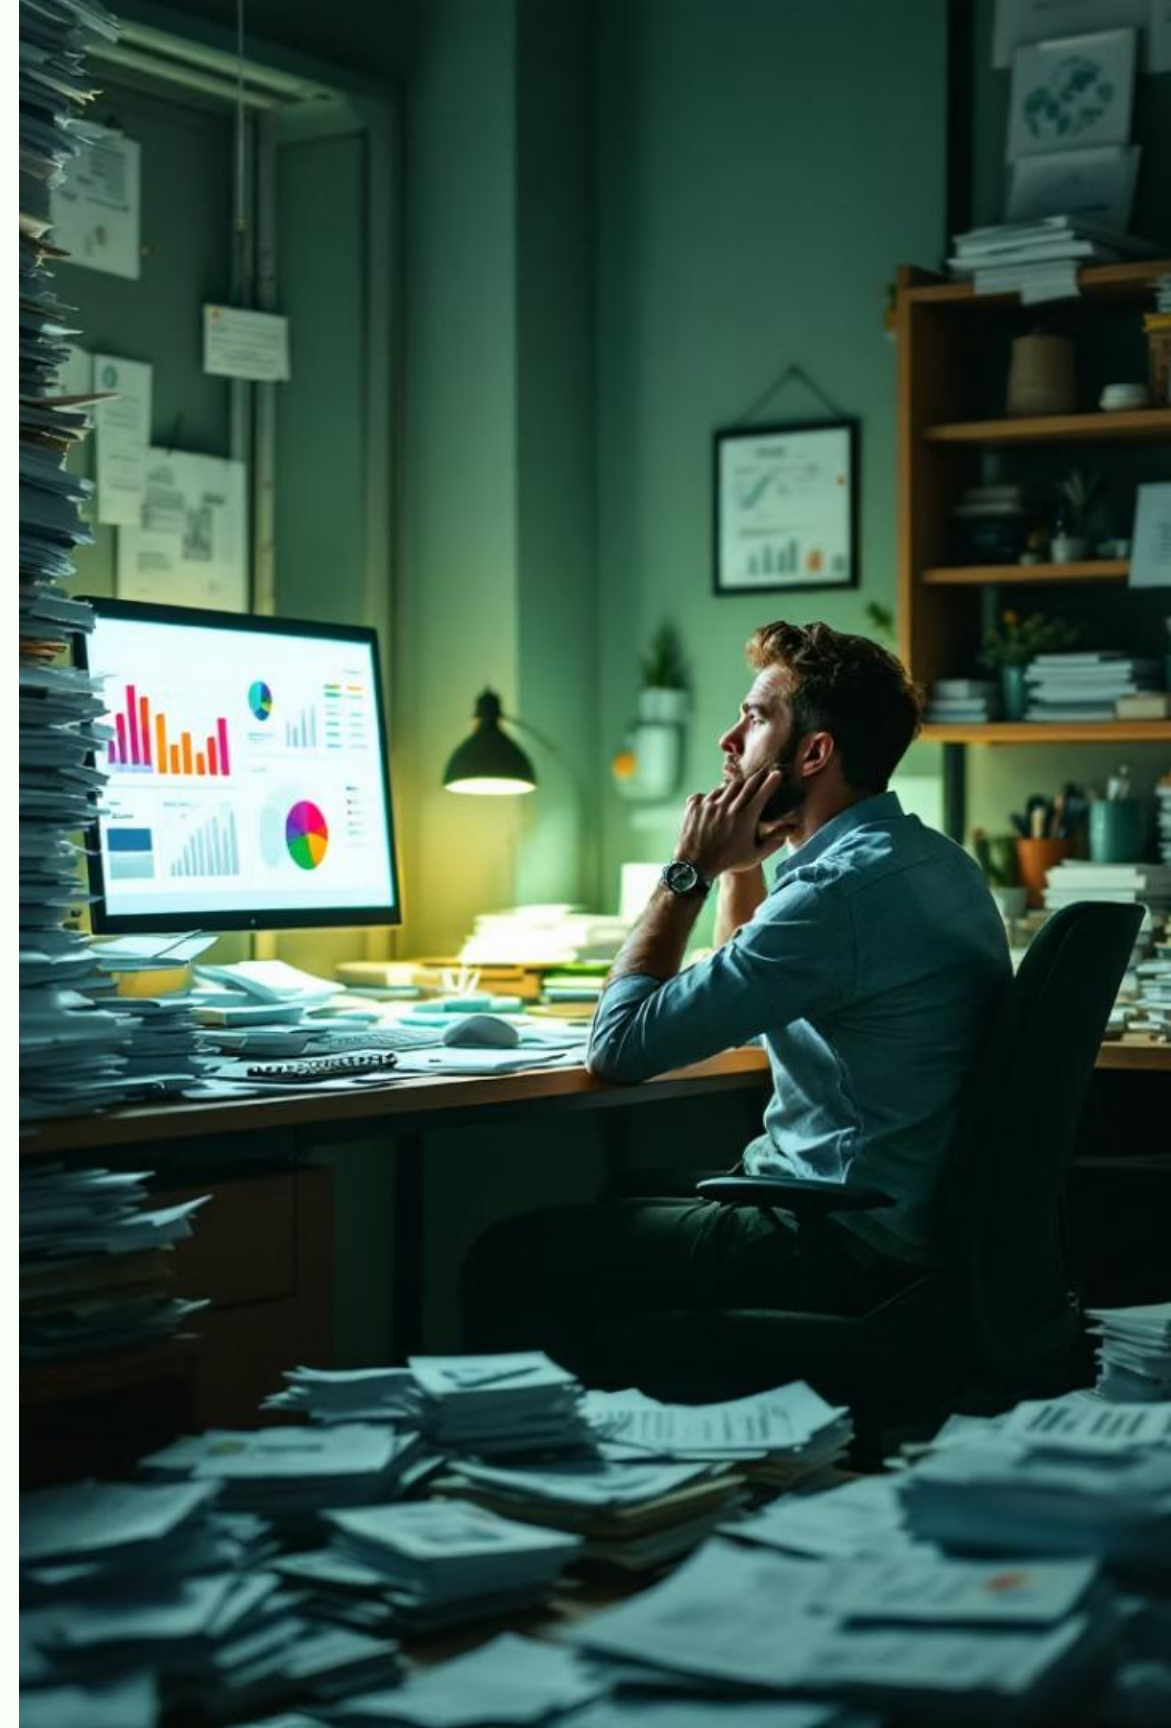

Tracking Performance

Difficulty in tracking business trends.

Informed Decisions

Need for quick, data-driven decisions.

Grabby: Simple, Real-Time Advice

Key Metrics

Instant view of revenue, trends, and top items.

Proactive Tips

Receive growth recommendations.

Local Tone

Friendly communication in local languages.

Grabby's Key Features

1

Revenue & Orders

Total sales and order counts at a glance.

2

Top Sellers

Identify best-selling products easily.

3

Multilanguage Support Languages

Supports English, Tamil, Chinese and local dialects

– ensuring accessibility for diverse merchant-partners across Southeast Asia.

Harnessing Data for Powerful Insights

transaction_data.csv	Sales volume, order value, time-based trends
item.csv	Item prices, cuisine tags, item names
transaction_item.csv	Item-level order counts, top-sellers
merchant.csv	Merchant profile personalization (location, join date)
keyword.csv	Engagement behavior (views vs. checkouts)

Real-Time Chat Example

1

User Asks

“How much did I earn in April?”

2
